Professional Summary

IT graduate specializing in Systems Development, with experience across web development, 3D digitization, and data automation. Currently a Science Research Analyst building a web-based virtual biobank — specimen digitization (photogrammetry, RealityScan), 3D web environments (A-Frame), metadata structuring, and workflow automation (VBA, Apps Script). Also experienced in WordPress/Elementor development and event video production. Quick learner, reliable, and comfortable across technical and creative work.

Skills

WordPress, Elementor, PayPal Integration, SMTP Configuration, A-Frame (3D Web), Photogrammetry, RealityScan, Excel VBA, Google Apps Script, HTML/CSS, Metadata Management, Video Editing

Experience — Science Research Analyst

- Digitize specimens (photogrammetry, RealityScan); build metadata templates and taxonomy standards
- Develop 3D web environments (A-Frame) and HTML/CSS mockups for specimen displays
- Automate workflows using Excel VBA and Google Apps Script
- Coordinate with stakeholders on design review and web compliance

Experience — Web Developer

- Built and maintained WordPress/Elementor sites for clients
- Configured SMTP email and integrated PayPal payments
- Handled ongoing site updates and maintenance

Work Experience

Science Research Analyst

Philippine Center for Postharvest Development and Mechanization (PhilMech)-Science City of Muñoz
November 2025 to Present

Under the Food Protection Division

- Digitizes specimen images and creates 3D models of insect specimens through photogrammetry and RealityScan
- Develops interactive 3D web environments using A-Frame for the virtual biobank
- Builds HTML/CSS mockups and wireframes for specimen displays and walkthrough navigation
- Creates metadata templates and applies taxonomy standards for consistent specimen data organization
- Automates data workflows using Excel VBA and Google Apps Script
- Coordinates with FPD and ICTDTD teams on design review, documentation, and web compliance standards

Science Research Analyst

Philippine Center for Postharvest Development and Mechanization (PhilMech)-Science City of Muñoz
May 2025 to November 2025

- Under the Enterprise Development Division

- Provides assistance to Farmers's Cooperatives and Associations in the development of their operational plan/business plan of their RCEF farm machineries and postharvest technologies
- Developed a monitoring website for the implementation of the project
- Prepares powerpoint presentation materials, reports, and audiovisual presentations
- Gather, analyze, and encode utilization reports, im under the Food protection division

Data Controller I

Philippine Center for Postharvest Development and Mechanization (PhilMech)-Science City of Munoz
August 2023 to May 2025

Gather, analyze, and encode farm machinery utilization reports from 11 provinces.

Coordinate Farmers Coepetatives and Associations/Local Government Units and Provincial Focals for the submission of reports.

Generate and consolidate reports in Microsoft Excel with the help of formulas and Microsoft Visual Basic and Google Sheets with Google App Scripts.

Education

Information Technology (Bachelor's)

Central Luzon State University-Muñoz
August 2018 to July 2023

Accountancy, Business and Management (Senior High School)

Sto. Domingo National Trade School-Sto. Domingo, Nueva Ecija
June 2016 to April 2018

Electronics Products Assembly and Servicing (Junior High School)

STO DOMINGO NATIONAL TRADE SCHOOL-Sto. Domingo, Nueva Ecija
June 2012 to April 2016

Elementary/ Primary school

BUNOL ELEMENTARY SCHOOL-GUIMBA
June 2006 to April 2012

Skills

- Google Suite
- Data analysis skills
- PHP
- HTML
- WordPress
- SQL
- Video editing skills
- Canva
- JavaScript
- CSS
- Aframe

- Microsoft Office

Languages

- Tagalog - Native

Awards

Leadership Award

May 2018

Recognition for outstanding performance in duties and responsibilities in the activities of National Service Training Program - Civic Welfare Training Service

Certifications and Licenses

Web Development Fundamentals

September 2025 to Present

This credential earner demonstrates knowledge of web development concepts, processes to develop, deploy, and test websites, and the tools and programming languages that web developers use. The individual has a conceptual understanding of how to develop an interactive website using HTML, CSS, and JavaScript in a simulated integrated development environment (IDE). The earner is aware of the job outlook in web development and is familiar with the skills required for success in various roles.

Civil Service Professional Eligibility

March 2023 to Present

Groups

Microsoft Computer Society

September 2019 to Present

A non-college-based organization in our university that gives assistance and free seminars on how to use Microsoft tools and fundamentals of programming language for our freshman students and who people are willing to learn.
